

Dear Parent or Guardian

I am writing to you on behalf of Queens Drive Infant School to inform you that from the 15th April 2021 we will be implementing a School Street project outside of the school gates.

“School Streets” is a scheme where the streets outside of a school are closed to school run traffic at opening and closing times. Queens Drive West will be closed to traffic at both the junction with Dogsthorpe Road and the junction with Park Road between 8.15am - 9.15am and 2.30pm - 3.30pm, Monday to Friday (during term times).

Only residents, blue badge holders, school staff and service/emergency vehicles will have access during the closure times.

This closure is intended to discourage irresponsible parental parking, improve air quality, tackle congestion, increase safety, enable greater space for social distancing and encourage more people to walk, cycle or scoot for the school commute. The road will be closed using a legally binding Temporary Traffic Notification and complies with all relevant legislation.

A great majority of pupils that attend the school live locally and so we would encourage any of you who are able to do so, to consider walking, cycling or scooting to the school even if it means leaving your house slightly earlier. Having said that we fully recognize that for some parents this may not be an option and you will continue to need a car for all or part of your onward journey. If you must drive, we recommend that you park at Central park / Park Crescent and walk for the remainder of the journey.

Please avoid parking on local residential streets.

We appreciate that the road closure will mean that some parents need to make adjustments to their journeys to and from school. We hope that the majority of you will agree that congestion and irresponsible parking behavior outside of the school gates is unacceptable and potentially very dangerous, and so will embrace the closure with an open mind. The school and the City Council are both committed to trying to improve the school run for parents, children and the wider community.

If you have any questions or need any further information, please contact Rebecca Presland (as per contact details below).

Kind Regards,

Rebecca Presland
